

# Companion™

**GLYPH**  
FireWire Hard Drive

Glyph's new Companion™ sets the standard in storage solutions for micro studios. The Companion has been engineered specifically for Digidesign's Mbox™.

Companion is a high performance hard drive system with a dual port, 6-pin FireWire interface in a small, portable case that couples with the Mbox. The Companion's reliability and ease of use allows you to unleash the full potential of your micro studio.

- Available in capacities of 60GB, 80GB and 120GB.
- Seamlessly record, overdub, mix and edit up to 420 minutes of 24 track, 24 bit audio at 48kHz.\*
- Fully optimized solution for superior audio performance.
- Equipped with state of the art high performance, 7,200 RPM hard drives, quieted by advanced composite metals technology to reduce vibrational noise.
- Comes complete with Glyph's outstanding 24 hour advance replace warranty at no additional charge, along with our unrivaled tech support and service.
- Engineered with thermal sensing cooling to prolong the life of your Companion.
- Stylized form and functionality with the speed and ease of FireWire connectivity.
- Compatible with a wide range of recording hardware, including Digidesign's 001 and devices from other manufacturers as well.

**Perfectly matched  
perfectly portable**

**FireWire Hard Drive**

Glyph is focused on providing reliable storage for digital A/V professionals. All Glyph Hard Drives are programmed with custom mode page settings to achieve optimal performance and ensure maximum functionality and compatibility. Glyph's unrivaled service and tech support is flanked by an Overnight Advance Replacement warranty on all 9 GB and larger hard drives in single drive enclosures. A 48 hour or less turnaround is normal for all other warranty service.

**Hardware Specifications**

Capacity . . . . . 60, 80 or 120 GB  
 Interface . . . . . IEEE 1394, Standard 6-pin

**Performance**

Average Seek (Read) . . . . . 8.2msec.  
 sustained Transfer Rate . . . . . > 30MB/sec.  
 Multi-segmented Cache (MB) . . . . . 2  
 Rotational Speed . . . . . 7,200 RPM

**Reliability**

MTBF (Projected Field) . . . . . 1,000,000 hours  
 Limited Warranty (years) . . . . . Three (3) Years

**Power Supply**

Tabletop . . . . . Switching, 100 - 240V AC Input

**Environmental**

Operating Temperature (F/C) . . . . . 41 to 122 / 5 to 50

**Physical Dimensions**

Height, Width, Depth (in/cm) . . . . . 6.25 x 1.88 x 9.25 / 16 x 4.7 x 23.8  
 Weight (lbs/kg) . . . . . 3.25 / 1.5

**Included with this Glyph Hard Drive**

- (1) QuickStart User's Manual
- (1) FireWire cable
- (1) Power Cable
- (1) Macintosh Driver and Formatting Utilities
- (1) Warranty Registration Card

**Compatibility**

**Computer Systems**

Power PC and Wintel Compatible

**Digital Audio Workstations**

Digidesign - Mbox, Digi 001

\* Be careful not to underestimate your needs. For maximum performance you should use a drive at least 30% larger than your estimated need. This ensures that you have the room necessary for operating overhead and extra files generated during mixing and editing. Please note: This chart illustrates the capacities required for specific bit depths, sample rates and track counts. The ability to achieve higher track counts is dependent on your DAW.
