

DV Project 800™

FireWire 800 RAID Array

When your non-linear editing workstation hungers for mass storage and blazing speed, Glyph's DV Project 800 RAID array is the only solution. DV Project 800 is specifically designed for videographers who need massive disk space without sacrificing performance. Boasting the higher speeds of IEEE-1394b, the DV Project 800 uses the latest bridging technology to provide double the data bandwidth possible from a FireWire 400 system. DV Project 800 is also backward compatible with FireWire 400 systems.

DV Project 800 Features:

- Capture, playback, render & edit full broadcast quality video
- RAID 0 software stripe for superior performance with your NLE
- Connects to FireWire 800 or legacy FireWire 400 ports
- Compatible with Mac OS X and OS 9
- Supports Final Cut Pro, Media 100 i and Avid Xpress
- No termination, ID's or cable lengths to worry about
- Can be configured as a tower, rackmount or tabletop
- Comes complete with Glyph's outstanding 24 hour advance replace warranty at no additional charge, along with our unrivaled tech support and service.

Scalable Capacity

- Available in single, double or triple RAID configurations
- Three DV Projects can be striped together enabling seamless expansion up to 2.4 Terabytes

DV Project - Firewire RAID Array

Glyph Technologies focuses on robust, high-speed RAID arrays for A/V professionals. All Glyph RAID arrays are tested and optimized to work with the latest in NLE workstations to achieve optimal performance and ensure maximum functionality and compatibility. Glyph's legendary service and tech support is backed by an Overnight Advance Replacement warranty on all DV Project RAID arrays.

RAID Array Specifications

Capacities . . . 160, 240, 320, 400, 500, 600, 800GB
Interface IEEE 1394b (FireWire 800)
Sustained transfer rate 65-75 MB/sec
Max External transfer rate 800 Mb/sec
Power Supply Universal 100-240v, 50-60 Hz
Limited Warranty Three (3) Years

Physical

H, W, D (in) - Tower 14 x 5 x 9.25
H, W, D (in) - Tabletop 2 x 13.75 x 9.25
H, W, D (in) - Rackmount 1.75 x 19 x 9.25
Weight (lbs/kg) 7.2 / 3.3

Disk Technical Specifications

Buffer 8 MB, except 160GB (2MB)
Rotational speed 7,200 RPM
Average Seek time (read) 8 msec

Supported Non-linear Editors

Final Cut Pro
Avid Xpress
Media 100 i/1e, Media 100 i/1x, Media 100 i/xs
Media 100 i/xr
(Media 100 i/xr requires two DV Project units for a total of 4 drives)

Included with Glyph DV Project

- (1) QuickStart User's Manual on CD
- (1) 2 meter 9pin-9pin Firewire 800 cable
- (1) 1/2 ft. 9pin-9pin FireWire 800 cable
- (1) Base w/screws
- (2) Rack ears w/screws
- (4) Rubber feet
- (4) Rack Mounting Screws
- (1) Cable Strain Relief w/screw
- (1) Power Cable
- (1) Documentation CD with warrant registration

Supported Hardware and Software

Apple G4 or G5 running Mac OS 9.2 or Mac OS X 10.2 and later
