

GT SERIES

# GT<sup>TM</sup> 205

## Features:

- Capacity of 3TB with four 750GB drives
- Sustain data rates of 40 MB/sec with FireWire (IEEE 1394a/iLink)
- FireWire connectivity is hot pluggable and allows 63 devices daisy chained
- Fast 7,200 RPM, ATA/100 Seagate drives with up to an 8MB cache
- Internal frame constructed with sound-dampening metal absorbs drive vibration and reduces noise
- FireWire Port accessible on the front panel
- Option of AIT, SCSI or FireWire hot-swap receiving bay, DVD-R or CD-R/RW
- Comes complete with Glyph's 24-hour advance replacement warranty along with outstanding technical support at no additional charge.

## Five Drives in a 2U Rack - Compact yet Powerful. Big Storage, Smaller Package.

The GT 205 is a double-space five-bay FireWire enclosure specifically designed for applications requiring multiple drives. It can be configured with four GT Key hot-swappable drives in any available capacities, and its SCSI/FireWire expansion bay offers the option of AIT backup, a SCSI or FireWire hot-swap receiving bay, DVD-R/RW or CD-R/RW. Using Integrity™, Glyph's proprietary hot-swap technology, you can easily shuttle content to other GT Series enclosures with the 7,200 RPM GT Key. Integrity™ is an advanced FireWire hot-swap interface that provides greater reliability than existing hybrid ATA-to-FireWire products. Focused on keeping your studio quiet, GT Keys incorporate sound-dampening metal in their frames. This composite metal technology absorbs drive vibration and reduces unwanted noise. Glyph's GT 205 comes standard with a three-year warranty, while GT Keys carry an additional overnight advance replacement warranty in the first year.

## GT 205 Specifications

- Interface: Three IEEE 1394a/iLink (FireWire 400) connectors
- Dimensions: H 3.5" x W 19" x D 16"
- Power supply: Three internal supplies, Universal 100-240v, 50-60 Hz
- Weight (lbs/kg): 28 lbs/13 kg (loaded), 17 lbs/ 8 kg (w/DVD or AIT in exp. bay)
- Compatibility: Mac OS 8.6/9.x/10.x, Windows 98SE/2000/ME/XP, Linux
- Includes: 2 meter FireWire cable, power cable, rack screws, downloadable manual
- Warranty: 3 years

## GT Key Specifications

- Capacity: 80, 160, 250, 320, 400, 500, 750GB
- Rotational speed: 7,200 RPM
- Bridging: Oxford 911 chip on Glyph's own bridge board
- Buffer size (cache): 2MB (80GB), 8MB (160GB - 750GB)
- Average seek time (read): 8 msec
- Max external transfer rate: 400 Mb/sec (50 MB/sec)
- Dimensions: H 1.1" x W 4.6" x D 9.4"
- Weight (lbs/kg): 2.9 lbs / 1.3 kg
- Power supply: Gets power from enclosure
- Operating Temperature (C/F): 41 - 122/5 - 50
- Warranty: 3 years, Overnight advance replacement warranty in the first year
